

Vendors of Choice:

Throughout the years, we have had the occasion to recommend specific shoe stores to purchase the best quality shoes with the best possible fit.

Usually an Extra-Depth shoe is best with at least one removable lining to allow enough depth. Be sure there is enough room in the toe-box area and the counter should be firm.

It is recommended to pass this letter on to your shoe store of choice. This helps communicate our expectations to other vendors. The list of vendors below are shoe stores that make an exceptional effort to provide assistance with your specific needs.

We hope your experience with these vendors is as wonderful as ours have been.

Please feel free to contact us with any questions or concerns, Monday through Friday from 9 AM to 5 PM at (513) 474-4450.
